

INCOMPLETE CONTRACT

Incomplete Grade: The grade "Incomplete" may be granted to a student only if it can be demonstrated that it would be *unfair* to hold the student to the normal time limits of the course. Illness or exceptional circumstances are the usual bases for consideration. For undergraduate students, an Incomplete is counted as "F" in calculation of the grade point average until the professor processes the Incomplete-to-Grade Form.

The primary professor of the course now records the grade of "Incomplete" directly via Banner Web when they enter all final grades. When entering the grade of "I" you must also enter the deadline to complete the "I" and a default grade if the student does not complete the required coursework. If no alternate grade is entered, the "I" will automatically convert to a grade of "IF" on the default date noted in Banner Web. The deadline and alternate grade should be entered by the faculty member via Banner Web at the same time s/he enters the incomplete grade.

This form is a contract between professor and student. It does not need to be submitted to the Registrar's Office.

The student and instructor should each retain a copy of this contract for their records
