Then put your mouse cursor in the row of the class you want to see the "Class List" and click. The class list will appear.

**Please Note**: If you click directly on the "Course Title" or "CRN", the class list will not appear. You will get information on the course details or class details.

You can also see if you have any students on the <u>wait list</u> when you go to your "Class List".

You also have the ability to **export** your class list to an Excel Spreadsheet when you are on the "Class List" page.
